

# RainSaver Rainwater Harvesting System

## Tera series - Underground rainwater tank

### Description

High structural integrity designed for underground rainwater harvesting systems.

Large storage capacity up to 3,000 liters

Suitable for residential buildings that require large capacities without compromising on living space.

### Features (ZeoTech)

Uni-body and seamless construction for zero-leak operation throughout its lifetime.

Use of food-grade material ensures no toxicity nor odor are imparted into the water.

Light weight and ruggedness facilitate speedy installation and easier handling and transportation.

### Technical data

Model name:	TERA 1200 / 2000 / 3000
Capacity:	1,200 / 2,000 / 3,000 liters
Dimension:	T1200 - 1,300 (diameter) x 1,200 (height) mm T2000 - 1,450 (diameter) x 1,760 (height) mm T3000 - 1,625 (diameter) x 1,740 (height) mm
Material:	Polyethylene (PE)

Compact filter

First flush diverter

Calmed inlet

Overflow siphon
